

Resource Availability – Human & Physical

Burdwan is historically one of the resourceful districts in West Bengal. Due to its rich cultural background, the no. of Schools & Colleges is respectively high. In the western part of the district, a good number of officials and labours are employed in industrial & coal mine zone. Overall, Burdwan is solely independent in respect of manpower availability. Regarding Logistics & IT management, Burdwan has developed several IT applications for the Citizens. Citizen can grab various statistics from the district web site. Queue Management System, Web GIS are the most successful applications in respect conduct of Election. Citizen can know the length of the queue in front of their polling booth at any time on the poll day just sending a sms or accessing the site by their mobile apps. Web GIS provides all the relevant information to the citizen. Besides these, all the applications developed by the CEO office like BMF application, Samadhan, Suvidha, Sugam etc. are maintaining in the district with due importance.
